So what's your point cracker. Most serial killers are white, Jeffery Dalmer tortured and ate his victims. The Green River serial rapist, was raping and killing hookers for 2 decades is a white man. Timothy McVeigh a white guy was the Oklahoma city bomber who killed hundreds of people. John Wayne Gacy raped and killed dozens of young boys. I could go on for ever but here's a link craker, The vast majority of offenders are white. I guess these guys are really smart. <http://www.crimelibrary.com/serialkillers.htm> Europeans took africans as slaves and the process killed millions of blacks because they were too lazy to do the work themselves. Let me ask you one question craker. Could America have become the super power that it is, if it wasn't for slaves? Craker you should show some gratitude to the blacks in this country that you obviously despise. Craker if you want another example of white atrocities I can keep going. How about Rwanda in africa where about a million Tutsis were killed by the Hutu majority. You know what the underlying cause of this was? Well let me tell you craker. After the whites took control and left this part of Africa to their own device, they gave control of this country to the Tutsi minority. Why? Cause they had a more European appearance. Now how do you suppose the majority Hutu must of felt about this. I leave it to your brain to figure the rest, since your so much more intelligent. You also say that blacks are so much more likely to commit rape than whites, however you show no numbers or proof just your own perception. With your scientific way of looking at the world, I could theorize that whites are more evil than blacks. Your comments have no relevance you show now proof, just your own perception. This is typical of Conservatives, they rely on anecdotal evidence to come to their conclusions. If scientist relied on anecdotal evidence we would have no progress. The only reason you post this filth is to perpetuate your hate for blacks. It serves no other purpose. And if your the craker I think you are, none of the examples I've presented would be emotionally riveting because you are motivated by hate and a hateful person can never show empathy to the hated because as far he's concern the hated is less than human. Hate never reveals themselves only to object of the hater. A craker like yourself is an all around hatefull person. Thats why all hate movements are never effective, you guys end up hating everybody, even your own. Sir Issac Newton: For every action there is an equal and opposite reaction.

No, we needed dumb labor. Black slaves would have been replaced by machinery, anyway. So, either way, negroes would have ended up worthless

I could go on for ever but here's a link craker, The vast majority of offenders are white. Wrong. Actually, if I were to check, I'd venture a guess that negroes were disproportionately represented among serial killers. But, I shall not check now. No, not with 84% being white and balance being split among all races

Venture a guess? Name 5 black serial killers off the top of your head. It's so easy for me to name 5 white serial killers. You had to go search the internet. Most people could name 5 white serial killers with little trouble. Here's 5 off the top of my head: , using your prerequisite, whites are evil. Most blacks are too dumb to get away with enough homicides (three or more) to qualify for serial killer status, because it takes some BRAINS to do that. Besides, most of the burrheads who do target black prostitutes, who generally aren't missed, even by their own race, when they disappear...
